The Records of the Oregon Bird Records Committee

March 2020

The Oregon Bird Records Committee (OBRC) was organized in 1978 to collect, review, and maintain records on rare birds found in Oregon. The OBRC became a Committee of the Oregon Birding Association (OBA) in 1980.

The Committee
The OBRC consists of 9 members and up to 5 alternates from throughout Oregon. Members and alternates are elected by their peers. Members serve staggered 3-year terms and alternates serve 1-year terms. The OBRC votes on most records electronically or at an annual meeting.

The OBRC uses the taxonomy and nomenclature of the American Ornithologists’ Society’s 1998 Check-List (as supplemented).

Record Numbering System
Each record considered by the OBRC is assigned a unique record number. The first 4 digits represent the official four-letter banding code for the species; this is followed by the year in which the record was obtained; the last 2 digits represent the number of records of that species that have been received by OBRC, assigned consecutively as reports are received.

Records Accepted by the OBRC are denoted with an A followed by the number of accepted records for that species. Records Not Accepted are denoted by an N and the number of not-accepted records for that species.

Information for each record includes location where the record was obtained, the date(s), the plumage, gender or age of the bird when appropriate, and observer initials; these contributors are listed at the end of the document.

The Official Oregon State List now stands at 543 species.

RECORDS

BLACK-BELLIED WHISTLING-DUCK *Dendrocygna autumnalis*

FULVOUS WHISTLING-DUCK *Dendrocygna bicolor*

Not Accepted:
FUWD-1995-02 (N1)  Upper Campbell Lake, Lake Co., 2 birds were observed 18 September 1995. Not accepted as descriptions did not adequately describe a Fulvous Whistling-Duck or completely rule out similar duck species. (Old number: 178-95-02)

TUNDRA BEAN GOOSE *Anser serrirostris*
TUBG-2014-01 (A1)  Nestucca Bay NWR, Tillamook Co., 1 bird from 9 November 2014 through April 2015 (WH, DI; photos by DaV, HH, NeN, ScC, AFr, OS, WH, CBe, DI). (Old number: 171.1-14-01)

[eBIRD NOTE: Bird first seen 27 October 2019 and last seen 15 March 2019 based on eBird description by SaH.]

**WHOOPER SWAN** *Cygnus cygnus*

**WHSW-1994-02** (A1)

Summer Lake WA, Lake Co., 1 bird from 10-21 Nov 1994 (JJo; photos by HN, CM, SR; videotapes by OS and RBa). (Old number: 179-94-02)

**WHSW-1997-03** (A2)

Airlie, Polk Co., 1 bird 27 November-1 December 1997 (JL; photos by WT, RL, RHo). (Old number: 179-97-03)

**WHSW-1998-04** (A3)

(Old number: 179-98-04)

**Not Accepted:**

**WHSW-1991-01** (N1)

Lower Klamath NWR, Klamath Co., 1 bird from 7 December 1991-22 February 1992. The bird was accepted as properly identified but the details were not sufficient enough to prove that the bird was actually in Oregon. (Old number: 179-91-01)

---

**BAIKAL TEAL** *Anas formosa*

**BATE-1974-01** (A1)

**BATE-2007-03** (A2)

Fern Ridge Reservoir, Lane Co., 1 male shot on 31 December 2007 (details by RKe; photos by DHol). (Old number: 139.1-07-03)

**BATE-2016-04** (A3)

Sauvie Island, Multnomah Co., 1 male shot on 31 December 2016 (details and photos by LeeR and CoS). (Old number: 139.1-16-04)

**Not Accepted:**

**BATE-2006-02** (N1)

Seaside, Clatsop Co., 1 bird on 11 November 2006. Details indicated a duck in unusual plumage that did not entirely fit this species or other similar plumaged ducks. (Old number: 139.1-06-02)

---

**GARGANEY** *Anas querquedula*

**GARG-1988-01** (A1)

Nehalem Sewage Ponds, Tillamook Co., 1 bird in basic plumage 17-19 September 1988 (NL, SH; photos by JJo, TC, JG). First verified state record. (Old number: 139.2-88-01)

**GARG-1992-02** (A2)

Bay City Sewage Ponds, Tillamook Co., 1 alternate-plumaged male 9-13 May 1992 (MSo, MP; slide by BW; videos by RBa and DVB). (Old number: 139.2-92-02)

**GARG-1998-03**

Bird determined to be an escape. *Record withdrawn.*

**GARG-2000-04** (A3)

Fernhill Wetlands, Washington Co., 1 eclipse-plumaged male on 22 October 2000 (HN, FSh). (Old number: 139.2-00-04)

</table>
COMP-1995-01 (N1) Hat Rock State Park, Umatilla Co., 1 immature plumaged bird 29 September-3 October 1995. Photos and descriptions did not perfectly fit pochard and did not rule out Redhead or hybrid Redhead X Canvasback. Hybrids of this type look quite like Common Pochard. (Old number: 146.1-95-01)

TUFED DUCK *Aythya fuligula*

REMOVED FROM THE REVIEW LIST APRIL 21, 2001

TUDU-1982-03 (A3) Finley NWR, Benton Co., 1 male on 14 February 1982 (JK; photos by RKr, FR). (Old number: 149.1-82-03)

TUDU-1984-05 (A5) Coquille, Coos Co., 1 male in adult plumage on 11 March 1984 (GK). (Old number: 149.1-84-05)

*Seen through 25 Mar 1988 per Oregon Birds.*

Hammond, Clatsop Co., 1 adult male on 8 May 1994 (photos by MP). (Old number: 149.1-94-17)

Cascade Locks, Hood River Co., 1 adult male on 17 April 1995 (DA). (Old number: 149.1-95-19)

Bay City Sewage Ponds, Tillamook Co., 1 adult male 16-30 April 1995 (photos by HN, SR). (Old number: 149.1-95-20)

Meares Lake, Tillamook Co., 1 adult male on 25 March 1996 (photos by CR). (Old number: 149.1-96-21)

Port Orford, Curry Co., 1 female 3-4 February 1999 (NW, CD). (Old number: 149.1-99-23)

Rufus, Sherman Co., 1 adult female 5-7 April 1997 (photos by CM). (Old number: 149.1-97-24)

Warrenton, Clatsop Co., 1 adult male on 3 April 1999 (photos by TT). (Old number: 149.1-99-25)

Warrenton Sewage Ponds, Clatsop Co., 1 adult male on 15 January 2000 (TT). (Old number: 149.1-00-26)

Astoria, Clatsop Co., 1 adult male 3 February-late April 2001 (TT; photo by JW). (Old number: 149.1-01-27)

Monmouth Sewage Ponds, Polk Co., 1 first-winter male from 12-31 January 1987. Originally accepted, but not accepted on reconsideration as the bird returned the next two winters, was subsequently identified as a hybrid bird, and was so published in American Birds (44(2): 318). (Old number: 149.1-87-06)

Baskett Slough NWR, Polk Co. 1 male on 26 February 1989. Not accepted because bird appeared to be a hybrid. Not accepted on reconsideration for same reason. (Old number: 149.1-89-10)

Originally part of 149.1-89-09, male and female. Male accepted. Female split from record and recirculated as record 149.1-89-12, not accepted. (Old number: 149.1-89-12)

Sauvie Island, Multnomah Co., 1 male bird on 29 December 1996. Details did not rule out hybrid duck or some other species. (Old number: 149.1-96-22)

Monmouth Sewage Ponds, Polk Co., 1 first-winter male from 12-31 January 1987. Originally accepted, but not accepted on reconsideration as the bird returned the next two winters, was subsequently identified as a hybrid bird, and was so published in American Birds (44(2): 318). (Old number: 149.1-87-06)

Baskett Slough NWR, Polk Co. 1 male on 26 February 1989. Not accepted because bird appeared to be a hybrid. Not accepted on reconsideration for same reason. (Old number: 149.1-89-10)

Originally part of 149.1-89-09, male and female. Male accepted. Female split from record and recirculated as record 149.1-89-12, not accepted. (Old number: 149.1-89-12)

Sauvie Island, Multnomah Co., 1 male bird on 29 December 1996. Details did not rule out hybrid duck or some other species. (Old number: 149.1-96-22)

---

**STELLER’S EIDER** *Polysticta stelleri*

STEI-2007-03 (A3)  Brays Point, Lane Co., 1 bird on 3 February 2007 (AC, CoW). (Old number: 157-07-03)

[eBIRD NOTE: Present through 20 April 2018, based on multiple eBird descriptions for final date of observation.]

KING EIDER Somateria spectabilis

KIEI-1980-02 (A2)  Cape Arago, Coos Co., 1 dead female on 18 November 1980 (MG; photo by LT); specimen at Oregon Institute of Marine Biology. First verified Oregon record. (Old number: 162-80-02)

KIEI-1981-03 (A3)  Tillamook Head, Seaside, Clatsop Co., 2 subadult males from 16 February-March 1981 (photos by OS, TC). (Old number: 162-81-03)

KIEI-1993-06 (A5)  South Jetty Siuslaw River, Lane Co., 1 female on 22 October 1993 (photo by BS). (Old number: 162-93-06)

KIEI-2000-10 (A8)  This record was moved to COEI/KIEI-00-01 (Common/King Eider) (Old number: 162-00-01)

Not Accepted:

KIEI-1987-04 (N1)  South Jetty Siuslaw River, Lane Co., 1 bird on 1 July 1987. Not accepted because there was insufficient information to eliminate Common Eider, Surf Scoter, or White-winged
Scoter. (Old number: 162-87-04)

KIEI-1997-08 (N2) South Jetty Umpqua River, Douglas Co., 1 female on 5 July 1997. Not accepted as the details were brief and incomplete and did not eliminate other duck species. (Old number: 162-97-08)

KIEI-2010-12 (N3) Yachats, Lincoln Co., the bird, probably an immature male, was seen at a distance in unsatisfactory conditions. The plumage description did not completely eliminate similar species. (Old number: 162-10-12)

**COMMON EIDER** *Somateria mollissima*

*COEI-2013-04* (A1) Coos Bay, Coos Co., 1 subadult male 15-17 March 2013 (details DI, TR; photos OS, NSt, BaT, DI, LoM). (Old number: 159-13-04)

**Not Accepted:**

*COEI-1965-01* (N1) Tillamook Bay, Tillamook Co., 1 female on 15 November 1965. (Old number: 159-65-01)

*COEI-1982-02* (N2) Netarts Bay, Tillamook Co., 1 immature male on 28 November 1982. (Old number: 159-82-02)

*COEI-1972-03* Yaquina Bay, Lincoln Co., a flock on 9 January 1972. *Record withdrawn by observer.* (Old number: 159-72-03)

**COMMON EIDER / KING EIDER** *Somateria sp.*

*COEI/KIEI-2000-01* (A1) Sea Lion Caves, Lane Co., 1 bird on 20 December 2000 (PP). (Old number: 159/162-00-01)

**COMMON SCOTER** *Melanitta nigra*

*COSC-2016-01* (A1) Siletz Bay, Siletz River, Lincoln Co., 1 adult male 14 November 2016 (ID, NeN, HH, RRi, WH, photos by ID, HH, OS, NeN, RRi, JkW). First OR state record. (Old number: 163.1-16-01)

**SMEW** *Mergellus albellus*

**Not Accepted:**

JAPANESE QUAIL  *Coturnix japonica*
*Not Accepted:*
JAQU-1988-01 (N1)  Three Creek Meadows, Deschutes Co., 1 in August 1986. Photos showed a juvenile Varied Thrush. (Old number: 288.6-88-01)

WHITE-TAILED PTARMIGAN  *Lagopus leucurus*
*Removed from the Review List November 1, 1981*
*Not Accepted:*
WTPT-1981-01 (N1)  Eagle Cap Wilderness, Wallowa Co., 1 bird on 1 August 1981. Not considered because species was dropped from the Review List. (Old number: 364-81-01)

EURASIAN COLLARED-DOVE  *Streptopelia decaocto*
*Removed from the Review List April 7, 2007*
EUCD-1999-01 (A1)  Oregon City, Clackamas Co., 1 bird on 21 December 1999 (RF). (Old number: 315.4-99-01)
**EUCD-2004-04** (A3)  Cape Blanco, Curry Co., 1 bird 8-11 May 2004 (photos by LoM, DMu; video by TWa). (Old number: 315.4-04-04)
EUCD-2004-05 (A4)  North Portland, Multnomah Co., 1 bird on 29 May 2004 (DBa). (Old number: 315.4-04-05)
**EUCD-2004-07** (A5)  Fields, Harney Co., 2 birds 7-11 May 2004 (photos by M). (Old number: 315.4-04-07)
**EUCD-2005-08** (A6)  Pilot Rock, Umatilla Co., 2 birds 7-13 February 2005 (AaS, JDW; photos by MLF; video by DH). (Old number: 315.4-05-08)
**EUCD-2006-09** (A7)  LaGrande, Union Co., 1 bird on 29 April 2006 (photos by TBr). (Old number: 315.4-06-09)
**EUCD-2006-10** (A8)  South Beach, Lincoln Co., 1 bird 2-3 May 2006 (photos by RC). (Old number: 315.4-06-10)
**EUCD-2006-11** (A9)  Sauvie Island, Multnomah Co., 2 birds 8-10 May 2006 (photos by OS, KhT). (Old number: 315.4-06-11)
**EUCD-2006-12** (A10)  Corvallis, Benton Co., 1 bird on 23 May 2006 (photos by PeK). (Old number: 315.4-06-12)
EUCD-2005-13  *Record withdrawn.* (Old number: 315.4-05-13)
**EUCD-2006-14** (A11)  North Bend, Coos Co., 3 birds on 3 June 2006 (photo by RuN). (Old number: 315.4-06-14)
EUCD-2006-16 (A13) Burns, Harney Co., 1 bird on 27 May 2006 (photo by NSt). (Old number: 315.4-06-16)

EUCD-2006-17 (A14) Brookings, Curry Co., 4 birds on 22 July 2006 (photo by SCh). (Old number: 315.4-06-17)

EUCD-2006-18 (A15) Cape Blanco, Curry Co., 1 bird on 4 August 2006 (video by OS). (Old number: 315.4-06-18)

EUCD-2006-20 (A17) Burns, Harney Co., 4 birds on 30 October 2006 (photos by GGu). (Old number: 315.4-06-20)

Not Accepted:
EUCD-1998-02 (N1) Portland, Multnomah Co., 1 bird on 22 May 1998. Not accepted as video and voice did not rule out Ringed Turtle-Dove. (Old number: 315.4-98-02)

EUCD-1999-06 (N2) Fields, Harney Co., 1 bird on 19 June 1999. Not accepted as description very poor and did not entirely rule out other dove species. (Old number: 315.4-99-06)

SPOTTED DOVE Streptopelia chinensis
Not Accepted:

COMMON GROUND DOVE Columbina passerina

COGD-2006-02 (A1) Cape Blanco, Curry Co., 1 bird on 3 August 2006 (photos by LoM; video by TWa). (Old number: 329-06-02)

COGD-2012-03 (A2) Cape Blanco, Curry Co., 1 bird 17-18 September 2012 (photos OS, LoM). (Old number: 329-12-03)

COGD-2010-06 (A5) Sauvie Island, Multnomah Co., 1 bird on 28 November 2010 (DI). (Old number: 329-10-06)

**GROUND DOVE**  *Columbina sp.*

---

**WHITE-WINGED DOVE**  *Zenaida asiatica*

**REMOVED FROM THE REVIEW LIST MARCH 30, 2013**

**COMMON GALLINULE** *Gallinula galeata*

**COGA-1982-04** (A4) Ken Denman WA., Jackson Co., 1 adult on 30 May 1982 (DHo). (Old number: 219-82-04)

COGA-2006-10 (A9) Black Butte Ranch, Deschutes Co., 1 bird on 10 April 2006 (DM). (Old number: 219-06-10)

COGA-2010-12 (A11) North Spit Coos Bay, Coos Co., 1 adult on 17 May 2010 (TR, DLa, KC). (Old number: 219-10-12)

Not Accepted: COGA-1995-07 (N1) I-84 east of the Sandy River, Multnomah Co., 2 adults on 31 August 1995. The description submitted fit that of adult gallinules. However, at the time of the observation no American Coots were observed. Yet the next day the observer and several other birders found two juvenile American Coots on the pond where the gallinules were seen; they could not find any gallinules. This species is very rare in Oregon, has occurred only as single individuals, and only during the spring. The record raises questions despite the good description. The Committee decided not to accept the record. (Old number: 219-95-07)

COGA-2012-14 (N2) Hart Lake, Lake Co., 24 July 2012. Inadequate documentation, submitted four years after bird was seen. (Old number: 219-12-14)

WHOOPING CRANE Grus americana

Not Accepted: WHCR-1997-01 (N1) Owyhee River, 15 miles north of Rome, Malheur Co. 1 bird on 1 May 1997. Description incomplete for Whooping Crane and did not eliminate other white birds. (Old number: 204-97-01)

AMERICAN OYSTERCATCHER Haematopus palliatus

Not Accepted: AMOY-1986-01 (N1) Bandon, Coos Co., 2 birds, apparently adults, on 11 October 1986. Not accepted because other species of black and white oystercatchers could not be eliminated on the basis of the description obtained under foggy conditions. (Old number: 286-86-01)

EURASIAN DOTTEREL Charadrius morinellus

EUO-2000-01 (A1) South Jetty Siuslaw River, Lane Co., 1 juvenile 24-26 September 2000 (AC, DLa, HH; photos by EH, CM, TJ, GL). (Old number: 269.1-00-01)
PIPING PLOVER *Charadrius melodus*
PIPL-1986-01 (A1) Neahkahnie Beach, Tillamook Co., 1 adult in fading alternate plumage on 6 and 8 September 1986 (CM, TC). (Old number: 277-86-01)

CUSA-2005-20 (A13)  North Jetty Siuslaw River, Lane Co., 1 juvenile bird on 24 November 2005 (M). (Old number: 244-05-20)

CUSA-2005-21 (A14)  Coos Bay, Coos Co., 1 bird on 18 December 2005 (photos by AC, DHe). (Old number: 244-05-21)

CUSA-08-23 (A16)  Bandon Marsh, Coos Co., 1 bird on 24 October 2008 (TR). (Old number: 244-08-23)

CUSA-2012-24 (A17)  Heceta Beach, Lane Co., 1 adult in partial alternate plumage 14 August 2012 (TMi). (Old number: 244-12-24)

Not Accepted:
CUSA-1965-01 (N1)  Sauvie Island, Multnomah Co., 1 in alternate plumage on 10-18 August 1965. Not accepted as description failed to indicate key field marks for species. (Old number: 244-65-01)

CUSA-1966-02 (N2)  Sauvie Island, Multnomah Co., 1 in basic plumage on 5 September 1966. (Old number: 244-66-02)

CUSA-1983-06 (N3)  Yaquina Bay, Lincoln Co., 1 in basic plumage on 23 October 1983. (Old number: 244-83-06)

CUSA-1984-07 (N4)  Meares Lake, Tillamook Co., 1 bird on 1 September 1984. (Old number: 244-84-07)

CUSA-1986-12 (N5)  Manzanita Beach, Tillamook Co., 1 bird on 15 September 1986. Photos. Not accepted because the photos showed an aberrant Dunlin or a Dunlin with white underfeathers ruffled on the rump by the wind. The bird lacked the distinctive supercilium of a Curlew Sandpiper. (Old number: 244-86-12)

CUSA-1989-13 (N6)  South Jetty Columbia River, Clatsop Co., 1 bird on 30 September 1989. Not accepted because description and photos indicated bird was a Dunlin. (Old number: 244-89-13)

CUSA-1995-14 (N7)  South Jetty Columbia River, Clatsop Co., 1 bird on 26 August 1995. The descriptions submitted appeared to be that of a Curlew Sandpiper. However, the slide taken of the bird showed chestnut
or dark reddish tertails edges and a back pattern consistent with that species. The Committee did not accept this questionable individual. (Old number: 244-95-14)

CUSA-2015-25 (N8) Whalen Island, Tillamook Co., 1 bird on 4 September 2015. Details and poor photo did not completely rule out similar species. Record submitted for reconsideration at 2017 Committee meeting; Committee members felt the documentation was inadequate and the photo did not rule out Stilt Sandpiper. (Old number: 244-15-25)

**TEMMINCK’S STINT** *Calidris temminckii*

**Not Accepted:**

**TEST-1984-01 (N1)** South Jetty Columbia River, Clatsop Co., 1 in alternate plumage on 17 August 1984. (Old number: 241.1-84-01)

**TEST-1977-02 (N2)** Toledo, Lincoln Co., 1 bird on 6 August 1977. Not accepted as observation too brief to obtain definite identification on this rare and hard to identify species. (Old number: 241.1-77-02)

**LONG-TOED STINT** *Calidris subminuta*

**Not Accepted:**

**LTST-1978-01 (N1)** Bayocean Spit, Tillamook Co., 1 bird on 2-3 September 1978 (photos). This record had been accepted but was rejected after reconsideration. (Old number: 242.1-78-01)

**LTST-1982-03 (N2)** South Jetty Columbia River, Clatsop Co., 1 bird on 11 and 13 September 1982 (photos). This record had been accepted but was rejected upon reconsideration. (Old number: 242.1-82-03)

**LTST-1982-04 (N3)** Florence, Lane Co., 1 bird on 15 September 1982. (Old number: 242.1-82-04)

**LTST-1998-07 (N5)** New River, Coos Co., 1 juvenile on 9 August 1998. Not accepted as report did not mention key field points and was not detailed enough for this exceedingly difficult identification. (Old number: 242.1-98-07)

**LTST-2007-08 (N6)** Tillamook Bay, Tillamook Co., 2 September 2007. Long-toed Stint is an exceedingly difficult species to separate from Least Sandpiper. Details given in this report did not adequately describe the differences between the two species. (Old number: 242.1-07-08)

**SPSK-1978-02** (A2) Newport pelagic trip, Lincoln Co., 1 bird on 30 September 1978 (photos by JG, TC). (Old number: 035.2-78-02)

**SPSK-1979-03** (A3) Newport pelagic trip, Lincoln Co., 4 birds on 29 September 1979 (TC). (Old number: 035.2-79-03)

*Not Accepted:*
SPSK-1981-06 (N1) Cape Arago, Coos Co., 1 bird on 15 September 1981. Record not considered because of removal of species from the review list. (Old number: 035.2-81-06)

**THICK-BILLED MURRE** *Uria lomvia*

TBMU-1933-04 (A2) Depoe Bay, Lincoln Co., female on 14 January 1933. (Museum record; specimen is number 9258 at the Yale Peabody Museum, New Haven, Connecticut). (Old number: 031-33-04)

**TBMU-2001-11** (A4) Newport, Lincoln Co., 1 moribund bird on beach 25 August 2001 (SSh; photos by Oregon Coast Aquarium; video by GG). (Old number: 031-01-11)

**TBMU-2012-16** (A8) Clatsop Beach, Clatsop Co., 1 bird moribund on beach 1 February 2012 (specimen photos MP). (Old number: 031-12-16)

**Not Accepted:**

**TBMU-1976-01** (N1) Boardman SP, Curry Co., 1 bird on 21 August 1976. (Old number: 031-76-01)

TBMU-1976-02 (N2) Coos Bay, Coos Co., 1 injured bird on 19 December 1976. This record had been accepted, but the decision was reversed upon reconsideration. New identification information in recently published books indicated that according to the description the bird was most likely a first-winter Common Murre. (Old number: 031-76-02)

**TBMU-1989-05** (N3) Yaquina Bay, Lincoln Co., 1 bird in summer plumage on 14 October 1989. Description and photos did not rule out Common Murre. (Old number: 031-89-05)

**TBMU-1989-06** (N4) Boiler Bay, Lincoln Co., 1 bird in summer plumage on 12 November 1989. Description did not rule out Common Murre. (Old number: 031-89-06)
Yachats, Lincoln Co., 1 bird in alternate plumage on 30 December 1990. Description was that of Common Murre. (Old number: 031-90-07)

Yachats, Lincoln Co. 1 basic-plumaged adult on 1 January 1991. Description did not rule out Common Murre. (Old number: 031-91-08)

Boiler Bay, Lincoln Co., 1 basic-plumaged adult on 14 November 1996. Not accepted as description and sketch did not rule out Common Murre. (Old number: 031-96-10)

Bandon, Curry Co., 1 bird on 26 June 2002. Not accepted as brief description did not fully rule out Common Murre. (Old number: 031-02-12)

Tierra del Mar beach, Tillamook Co., 1 flyover 8 January 2018. Not accepted as sighting was brief and at a distance; could not rule out other similar species. (Old number: 031-18-18)

Oceanide, Tillamook Co., 29 April 2017. Bird scoped from a distance and not enough details were able to be gathered.

**LONG-BILLED MURRELET**  *Brachyramphus perdix*

Cape Arago, Coos Co., 1 bird on 7 September 2003 (PLo). (Old number: 023.1-03-02)

Netarts Bay, Tillamook Co., 1 bird on 31 July 2012 (KeR, RSm). (Old number: 023.1-12-03)

Cape Arago, Coos Co., 1 bird on 7 September 2003. Not accepted as key field marks were not described. Description did not rule out similar species. (Old number: 021.1-03-02)

**KITTLITZ'S MURRELET**  *Brachyramphus brevirostris*

Coos Bay, Coos Co., 1 bird on 24 July 1969. (Old number: 024-69-01)

Tillamook Bay, Tillamook Co., 1 bird on 11 February 1978. (Old number: 024-78-02)

Boiler Bay, Lincoln Co., 1 bird on 6 October 1992. Not accepted as description did not rule out Pigeon Guillemot or some other alcid. (Old number: 024-92-03)

PAAU-2010-21 (A18) 95 km west of Oceanside, Tillamook Co., 1 bird on 1 May 2010 (RyM). (Old number: 017-10-21)

Not Accepted:

PAAU-1986-10 (N1) 0.5-1 mile off Cape Meares, Tillamook Co., 1 bird on 7 November 1986. Not accepted because the accuracy of the sighting at that distance was questionable. (Old number: 017-86-10)

PAAU-2005-14 (N2) Tillamook Bay, Tillamook Co., 1 bird on 21 February 2005. Although the description described an alcid it was not complete enough to adequately eliminate Rhinoceros Auklet or other alcid species. (Old number: 017-05-14)

PAAU-2009-18 (N3) 10 km west of Rockaway, Tillamook Co., 1 bird on 27 March 2009. The observer is a highly experienced seabird observer, but this description of a flying bird was very sparse and incomplete. (Old number: 017-09-18)
CRESTED AUKLET  *Aethia cristatella*

**Not Accepted:**

CRAU-1985-01 (N1)  1.5 miles offshore and 2.5 miles south of Cape Blanco, Curry Co., 1 bird on 1 September 1985. Not accepted as description did not fit this species. (Old number: 018-85-01)

CRAU-2010-02 (N2)  Port Orford, Curry Co., 1 bird on 14 October 2010. Poor photos did not adequately identify the species. There were no written details. (Old number: 018-10-02)

CRAU-2012-03 (N3)  Boiler Bay, Lincoln Co., 3 birds on 17 December 2012. Flying birds passing 200 yards offshore. Sighting very brief and at some distance. There appeared to be some hesitation by the observer on the accuracy of the identification. (Old number: 018-12-03)

HORNED PUFFIN  *Fratercula corniculata*

**REMOVED FROM THE REVIEW LIST MARCH 10, 1984**

HOPU-1968-01 (A1)  Cape Lookout, Tillamook Co., 1 in alternate plumage on 1 July 1968 (photo by WEH). (Old number: 014-68-01)

LIGU-2017-16 (A15) Sauvie Island, Columbia Co., 2 September 2017 (report by NM; photos by PhK, SSw). (Old number: 060.1-17-16)

**Not Accepted:**

LIGU-1978-02 (N1) Newport, Lincoln Co., 1 bird on 20 August 1978. (Old number: 060.1-78-02)

---

**ROSS’S GULL** *Rhodostethia rosea*

**ROGU-1987-01 (A1)** Yaquina Bay, Lincoln Co., 1 adult in basic plumage from 18 February - 1 March 1987 (photos by HN, JJo, OS, JM, SS, TC, video by RLo). First verified Oregon record. (Old number: 061-87-01)

**ROGU-1994-03 (A2)** McNary Dam, Umatilla Co., 1 adult in basic plumage from 27 November-1 December 1994 (PBa, MD; photo by RSu) (Old number: 061-94-03)

**ROGU-2014-05 (A3)** 22 September 2014, roughly 50 miles off Tillamook County (OS, TC). (Old number: 061-14-05)

**Not Accepted:**

**ROGU-1993-02 (N1)** Yaquina Bay, Lincoln Co., 1 immature bird on 18-19 April 1993. The description of this individual was of a bird in transitional plumage. It was seen at a distance and many identifiable field points were not seen and some that were described could well have been distorted by lighting and distance. This report did not completely eliminate other species of small gulls. (Old number: 061-93-02)

**ROGU-1995-04 (N2)** Newport, Lincoln Co., 1 adult on 26 March 1995. Not accepted as the Committee felt there were too few details for such a rarity. The description was brief and did not fully rule out similar species. (Old number: 061-95-04)

---

**LAUGHING GULL** *Leucophaeus atricilla*

LAGU-1998-08 (A2) Tillamook Bay, Tillamook Co., 1 adult in basic plumage 3-15 October 1998 (DBa; photos by HN). (Old number: 058-98-08)

LAGU-1999-09 (A3) South Jetty Columbia River, Clatsop Co., 1 summer adult on 31 July 1999 (MP). (Old number: 058-99-09)

LAGU-2017-10 (A4) South Beach State Park, Lincoln Co., 1 adult 13 April through 3 May 2017 (details and photos HH, WH, TBr, OS, RRo, VB). (Old number: 058-17-10)

Not Accepted:

LAGU-1980-02 (N2) Newport, Lincoln Co., 1 bird on 4 May 1980. (Old number: 058-80-02)

LAGU-1968-06 (N5) South Jetty Columbia River, Clatsop Co., 1 bird on 17 July 1968. Not accepted because Franklin’s Gull and other juvenile gull species were not eliminated by the description. The sighting was of a bird in flight; key field marks were not described. (Old number: 058-68-06)

LAGU-1996-07 (N6) Heceta Bank, Douglas Co., 1 first-winter bird on 17 September 1996. The bird was seen as it flew past and away from the observer. The sighting was rather brief and at an odd angle. The possibility of a misidentification was too great for the Committee to accept this report. (Old number: 058-96-07)

YELLOW-FOOTED GULL *Larus livens*

Not Accepted:
YFGU-1984-01 (N1) Manzanita Beach, Tillamook Co., 1 adult on 15 October 1984. (Old number: 049.1-84-01)

“VEGA” HERRING GULL *Larus argentatus vegae*

Not Accepted:
HERG-1996-01 (N1) Yaquina Bay, Lincoln Co., 1 adult on 1 December 1996. Not accepted as description incomplete and did not rule out other gull species. (Old number: 052-96-01)

HERG-2014-05 (N2) South Jetty Yaquina Bay, Lincoln Co., 1 adult on 27 October 2014. Although the bird showed a reddish eye-ring details and photos did not entirely rule out similar species. (Old number: 052-14-02)
ICELAND GULL  *Larus glaucoideus*
REMOVED FROM THE REVIEW LIST JULY 27, 2017

**ICGU-1996-12** (A2)  Salem, Marion, Co., 1 bird in second basic plumage 15 February-8 March 1996 (photos by StD). (Old number: 043-96-12)

mp4 Photos March 1993 (SF, PL, HH, BT, SMI; photos by HN, TFu, DVB, OS). (Old number: 048-92-02)

SBGU-1992-03 Record withdrawn. (Old number: 048-92-03)

SBGU-2004-08 (A5) Astoria, Clatsop Co., 1 adult bird 8 February 2004 (photos by MP). (Old number: 048-04-08)

SBGU-2009-09 (A6) Portland, Multnomah Co., 1 subadult 29 January-14 February 2009 (photos by ScC, SNo, MLF, OS). (Old number: 048-09-09)

SBGU-2008-10 (A7) Cape Creek, Lane Co., 1 bird on 6 April 2008 (details and photo by CTu). (Old number: 048-08-10)

SBGU-2018-11 (A8) Rainier City Park, Rainier, Columbia Co., 1 bird on 18 February 2018 (details and photos by NM; photos by NM, CoN, and NeN). (Old number: 048-18-11). *eBIRD NOTE: This bird continued to 19 February 2018, based on eBird photos by RuK.*

SBGU-2017-13 (A10) Found at D River mouth, Lincoln Co., also seen later that day in Siletz Bay, 4 February 2017 (details and photos PP).

Not Accepted:
SBGU-1989-01 (N1) Yaquina Bay, Lincoln Co., 1 third cycle on 23 October 1989. Not accepted because description did not rule out similar species or hybrids. (Old number: 048-89-01)

SBGU-2000-07 (N2) Hammond, Clatsop Co., 1 adult 4-6 November 2000. Not accepted as photograph of bird indicated Western X Glaucous-winged Gull with predominantly Western Gull features. (Old number: 048-00-07)

---

**GREAT BLACK-BACKED GULL** *Larus marinus*

Not Accepted:
GBBG-1982-01 (N1) Cape Blanco, Curry Co., 1 in first-cycle plumage on 26 December 1982. (Old number: 047-82-01)

GBBG-1991-02 (N2) Moolack Beach, Lincoln Co., 1 first-cycle bird on 30 January 1991. Details did not rule out hybrids or other gull species. (Old number: 047-91-02)

---

**ALEUTIAN TERN** *Sterna aleutica*
Not Accepted:
ALTE-2014-01 (N1) 112 miles west of Coos Co., Coos Co., one apparent subadult bird. Very detailed and extensive details did not entirely rule out similar species. Very poor photos were not convincing. (Old number: 073-14-01)

LEAST TERN *Sternula antillarum*
LETE-1973-01 (A1) South Jetty Siuslaw River, Lane Co., 4 adults on 19 August 1973 (JC, JuC). (Old number: 074-73-01)
LETE-1976-02 (A2) South Jetty Columbia River, Clatsop Co., 1 bird on 31 May 1976 (photos by HN). (Old number: 074-76-02)
LETE-1997-05 (A4) South Jetty Siuslaw River, Lane Co., 1 adult on 8 June 1997 (DSc, PSh; photo by BS). (Old number: 074-97-05)
LETE-1998-06 (A5) Yaquina Bay, Lincoln Co., 1 adult 26 July-1 August 1998 (KM, PSu; video by GG; photos by AMc, CM). (Old number: 074-98-06)
LETE-1998-07 (A6) Harris Beach State Park, Curry Co., 1 adult on 9 July 1998 (BzS). (Old number: 074-98-07)
LETE-2005-09 (A8) Bandon State Natural Area, Coos Co., 1 bird on 25 June 2005 (DLa). (Old number: 074-05-09)
LETE-2008-11 (A10) Tualatin River NWR, Washington Co., 1 bird on 24 June 2008 (NL, OS, EMc, BJF). (Old number: 074-08-11)
LETE-2004-12 (A11) HQ Malheur NWR, Harney Co., 1 bird on 4 June 2004 (RHo, AC). (Old number: 074-04-12)

Not Accepted:
LETE-1978-03 (N1) Newport pelagic trip, Lincoln Co., 1 bird on 30 September 1978. This record had been accepted but was rejected upon reconsideration. (Old number: 074-78-03)

ELEGANT TERN *Thalasseus elegans*
REMOVED FROM THE REVIEW LIST APRIL 3, 1993
Bayocean Spit, Tillamook Co., 14 in basic plumage on 20 August 1983 (photos by RP). First verified Oregon record. (Old number: 066-83-03)

BLSP-2015-06 (A5) 1 bird seen from cruise ship off Curry Co., 1 August 2015 (details PSu, BR).

BLACK-TYPE STORM-PETREL  *Hydrobates* sp.

PROVIDENCE PETREL  *Pterodroma solandri* (aka Solander’s Petrel)
*Not Accepted:*
PRPE-2009-01 (N1) 60 miles west of Lane Co. coast, Lane Co., 1 bird on 8 May 2009. Not accepted on reconsideration as the field marks used to identify the species has since been found to be seen on other similar species of *Pterodroma* petrels and is not diagnostic to Solander’s. (Old number: 099.2-09-01)

MURPHY’S PETREL  *Pterodroma ultima*
REMOVED FROM THE REVIEW LIST APRIL 16, 2011
MUPE-1981-01 (A1) Five miles south of Newport, Lincoln Co., 1 found dead on the beach on 15 June 1981. specimen at Smithsonian Museum of Natural History as No. USNM 571368. First verified Oregon record. (Old number: 100.1-81-01)
MUPE-1987-02 (A2) Horsfall Beach, Coos Co., 1 female live on beach, but later died 6 March 1987, specimen at Los Angeles Natural History Museum as No. LACM 103774. (Old number: 100.1-87-02)
MUPE-1988-03 (A3) Two miles south of Cape Blanco, Curry Co., 1 female found dead on beach on 27 March 1988, specimen at Los Angeles Natural History Museum as No. LACM 106131. (Old number: 100.1-88-03)
MUPE-2008-06 (A5) 40 miles west of Curry Co., 1 bird on 11 May 2008 (photo by OS). (Old number: 100.1-08-06)
MUPE-2008-07 (A6) 90 km west of Cape Blanco, Curry Co., 1 bird on 13 April 2008 (photo by THu). (Old number: 100.1-08-07)
MUPE-2010-08 (A7) Off Curry to Tillamook Cos., 43 birds on 1 May 2010 (photos RyM). (Old number: 100.1-10-08)
*Not Accepted:*
MUPE-1996-04 (N1) 80-100 miles west of Florence, Lane Co., 4 birds second week of August 1996. Not accepted as report did not describe enough detail to eliminate other *Pterodroma* species. (Old number: 100.1-96-04)

GREAT-WINGED PETREL  *Pterodroma macroptera*
*Not Accepted:*
GWPE-2007-01 (N1) 13-15 miles west of Coos Bay, Coos Co., 1 bird on 26 August 2007. Although the descriptions given were compelling they did not entirely rule out similar species of this very difficult to identify group of birds. The observers admitted limited experience with Pterodroma petrels. (Old number: 098.4-07-01)

**MOPE-2007-01 (A1)**

**MOTTLED PETREL** *Pterodroma inexpectata*

**REMOVED FROM THE REVIEW LIST APRIL 15, 2006**

60 miles west of Waldport, Lincoln Co., 9 birds on 31 March 1981 (RPl). (Old number: 099-81-01)

**MOPE-1959-02 (A2)**

**MOPE-1972-03 (A3)**

South of Yaquina Beach, Lincoln Co., 1 found dead on the beach on 19 March 1972. Skull is Museum no. USNM 555218 at the United States National Museum. Museum personnel could not definitely confirm identification; specimen examined by HN. (Old number: 099-72-03)

**MOPE-1972-04 (A4)**

South of Yaquina Beach, Lincoln Co., 1 found dead on the beach on 18 March 1972. Skull is Museum no. USNM 555219 at the United States National Museum. Museum personnel could not definitely confirm identification; specimen examined by HN. (Old number: 099-72-04)

**MOPE-1986-05 (A5)**

One-half miles north of Driftwood State Park, Lincoln Co., 1 adult found dead on the beach on 15 December 1986 (photos by RLo). (Old number: 099-86-05)

Not Accepted:

GYRF-1991-11 (N2) Harbor, Curry Co., 1 gray bird on 30 November 1991. Not accepted as the description was too brief and did not rule out an immature Peregrine Falcon. (Old number: 354-91-11)

GYRF-1991-12 Record withdrawn. (Old number: 354-91-12)

GYRF-1996-20 (N4) Bayocean Spit, Tillamook Co., 1 subadult gray-morph bird on 1 January 1996. This record was very brief and did not give enough detail to completely eliminate a Peregrine Falcon. A large falcon in flight is very difficult to identify to species. (Old number: 354-96-20)

GYRF-1995-21 (N5) Baskett Slough NWR, Polk Co., 1 dark bird on 9 November 1995. Details of this sighting were of a flying bird and were based more on size and coloration than any other field point. As the description did not eliminate other large falcons the record was not accepted. (Old number: 354-95-21)

GYRF-1995-23 (N6) Finley NWR, Benton Co., 1 brown immature on 31 December 1995. Not accepted as description was too sketchy and did not rule out similar appearing species. (Old number: 354-95-23)

GYRF-1997-25 (N7) Netarts Bay, Tillamook Co., 1 gray bird on 27 November 1997. Not accepted as description was very brief and did not describe key field points for Gyrfalcon, and did not adequately eliminate other hawk species. (Old number: 354-97-25)

GYRF-1998-31 (N8) Finley NWR, Benton Co., 1 light-morph bird on 21 February 1998. Not accepted as details were incomplete and confusing. Key field points were missing. (Old number: 354-98-31)

DUSKY-CAPPED FLYCATCHER Myiarchus tuberculifer
DCFL-1996-01 (A1) Newport, Lincoln Co., 1 immature 2-15 January 1996 (TC, AC, JJo, PDi; photos by TJ; voice recording by DBa; video by RBa, OS, DVB). (Old number: 455-96-01)

LEFL-1993-22 (A17) HQ Malheur NWR, Harney Co., 1 singing bird on 31 May 1993 (AC) (Old number: 467-93-22)

Not Accepted:
LEFL-1982-05 (N1) Wickiup Campground, Grant Co., 1 bird on 23 July 1982. (Old number: 467-82-05)

LEFL-1983-06 (N2) Mouth of Ladd Creek, Union Co., 1 bird on 9 September 1983. (Old number: 467-83-06)

LEFL-1987-14 (N3) Sauvie Island, Multnomah Co., 1 bird on 15 August 1987. This record was not accepted due to insufficient details and because other _Empidonax_ were not eliminated. (Old number: 467-87-14)

LEFL-1988-17 (N4) Fields, Harney Co., 1 bird on 30 May 1988. Not accepted because description did not rule out similar species. (Old number: 467-88-17)

LEFL-1990-19 (N5) HQ Malheur NWR, Harney Co., 1 bird on 1 June 1990. Not accepted as Committee felt the bird was a Hammond's Flycatcher. (Old number: 467-90-19)
LEFL-1985-27 (N6) Thornton Creek, Lincoln Co., 1 bird seen 13 August 1985. This bird was in heavy molt and gave only one call that was inconclusive. Record not accepted as a silent bird in this plumage would be extremely difficult to correctly identify to species. (Old number: 467-85-27)

LEFL-1987-28 (N7) Thornton Creek, Lincoln Co., 1 bird seen 1 September 1987. This bird also showed signs of molt and was silent. Hammond’s Flycatcher regularly molts prior to migration but Least Flycatchers do not molt until they reach their wintering areas. Record not accepted as a silent bird in molt would be extremely difficult to correctly identify to species. (Old number: 467-87-28)

LEFL-1990-29 (N8) Thornton Creek, Lincoln Co., 1 bird observed 24 August 1990. The plumage description provided was not complete enough to identify a Least Flycatcher and eliminate other Empidonax species. A persistently calling bird in late August is highly unusual and raised questions on what was actually heard. There were enough questions for the Committee to not accept the record. (Old number: 467-90-29)

LEFL-1998-33 (N10) Fields, Harney Co., 1 bird on 18 May 1998. Description of the bird was brief and not complete enough to entirely eliminate other Empidonax flycatchers. (Old number: 467-98-33)

EASTERN PHOEBE Sayornis phoebe

EAPH-1992-02 (A1) Falls City, Polk Co., 1 territorial bird 6-23 June 1992 (JJo, tape by WT; photos by NMc, BW, PM, TC, DVB, OS). First verified state record. (Old number: 456-92-02)

EAPH-1996-05 (A3) Independence, Polk Co., 1 bird 19-20 February 1996 (StD). (Old number: 456-96-05)

EAPH-2004-12 (A9) Fields, Harney Co., 1 bird on 19 May 2004 (photo by M). (Old number: 456-04-12)

EAPH-2010-16 (A12)  Lizard Creek Road, Deschutes Co., 1 bird 29-30 May 2010 (photos by BW) (Old number: 456-10-16)

EAPH-2011-17 (A13)  Brookings, Curry Co., 1 bird on 9 January and 8 February 2011 (RuN; photos by LoM, KnA). (Old number: 456-11-17)

EAPH-2011-19 (A15)  Lone Ranch Beach, Curry Co., 1 bird on 9 November 2011 (details and photos by DMu). (Old number: 456-11-19)

EAPH-2012-20 (A16)  Airlie, Polk Co., 1 bird on 1 June 2012 (WT; photos OS, NS, BrW). (Old number: 456-12-20)

EAPH-2014-22 (A18)  Langlois, Curry Co., 1 bird on 11 May 2014 (TR, photos by LoM). (Old number: 456-14-22)

EAPH-2005-29 (A24)  Oak Creek Dr., Corvallis, Benton Co., 24 April 2005, 1 bird on private property (details HH, JSi).

EAPH-2019-31 (A25)  Oak Island Rd., Sauvie Island, Multnomah Co., 7-8 May 2019 (report and photos AFr, NeN). [eBIRD NOTE: Bird was present 6 May to 23 May 2019 based on sound recording on first date of observation, and eBird report by the original finder on last date of observation.]

Not Accepted:

EAPH-1994-03 (N2)  Sage Hen Hill Rest Area, Harney Co., 1 bird on 29 May 1994. Not accepted as description and habits of bird were similar to Willow Flycatcher seen the next day. (Old number: 456-94-03)

EAPH-2002-10 (N3)  Malone Springs, Klamath Co., 1 bird on 6 June 2002. Details did not completely rule out other similar species. Observer did not see distinctive tail-pumping behavior. (Old number: 456-02-10)
<table>
<thead>
<tr>
<th>EAPH-2008-14 (N4)</th>

PLVI-2009-10 (A7) Fields, Harney Co., 1 bird on 9 June 2009 (AC). (Old number: 629.1-09-10)

PLVI-2017-12 (A8) Page Springs Campground, Harney Co., 3 August and 5 August 2017. (Details and photos by CG) (Old number: 629.1-17-12)

PLVI-2018-14 (A9) Page Springs Campground, Harney Co., two birds, one singing, 17 August 2018; and 1 bird refound 1 September (details NSt, PSu; photos NSt). \textit{eBIRD NOTE: Two birds present on 17 August 2018, plus one present through 5 September 2018 (photos in eBird by SN for last date of observation.)}

PLVI-2019-18 (A10) Page Springs Campground, Harney Co., one, possibly two adults, and one immature, 1 September 2019 and 7 September 2019 (details MN, NM, PC; photos MN).

\textbf{Not Accepted:}

PLVI-1999-01 (N1) Stukel Mountain, Klamath Co., 1 bird on 19 June 1999. This species is notoriously difficult to separate from Cassin’s Vireo. This report did not mention key field points that would have identified it as a Plumbeous Vireo. (Old number: 629.1-99-01)

PLVI-2001-02 (N2) Indian Ford Creek, Deschutes Co., 1 bird on 25 May 2001. Not accepted as details did not adequately eliminated Cassin’s Vireo. (Old number: 629.1-01-02)

PLVI-2005-07 (N3) Portland, Multnomah Co., 21 April 2005. The description did fit a Plumbeous Vireo, but did not entirely rule out a very pale Cassin’s. More detail was needed to accept this very early migrant bird. (Old number: 629.1-05-07)

PLVI-2014-11 (N4) McCully Creek, Wallowa Co., 1 bird on 25 May 2014. Details and photo did not rule out very similar faded Cassin’s Vireo. (Old number: 629.1-14-11)

PLVI-2018-13 (N5) Fields, Harney Co., 28 May 2018, 1 bird. Description was brief and did not rule out similar species.

\textbf{PHILADELPHIA VIREO} \textit{Vireo philadelphicus}

PHVI-2004-05 (A3) HQ Malheur NWR, Harney Co., 1 bird on 3 June 2004 (photos by RHo). (Old number: 626-04-05)

PHVI-2004-06 (A4) HQ Malheur NWR, Harney Co., 1 adult on 18 May 2004 (StS). (Old number: 626-04-06)
**PHVI-2013-09** (A5)  HQ Malheur NWR, Harney Co., 1 bird on 5 June 2013. Sight record only (JMe, JG; photo by JG). (Old number: 626-13-09)

**Not Accepted:**

PHVI-1978-01 (N1)  Newport, Lincoln Co., 1 bird on 18 August 1978. (Old number: 626-78-01)

PHVI-1983-02 (N2)  Cape Blanco, Curry Co., 1 bird on 7 June 1983. (Old number: 626-83-02)

PHVI-2007-07 (N3)  Oregon City, Clackamas Co., 1 bird on 1 September 2007. Fall vireos can be very difficult to identify. This description was too sketchy to eliminate Warbling Vireo or other species. (Old number: 629-07-07)

PHVI-2009-08 (N4)  Headquarters Malheur NWR, Harney Co., 1 bird on 5 September 2009. Not accepted as photo did not show field marks of a Philadelphia Vireo and appeared to be a very bright Warbling Vireo. (Old number: 629-09-08)

WOODHOUSE’S SCRUB-JAY *Aphelocoma woodhouseii*

**WOSJ-1921-01 (A1)** Two birds collected by Stanley Jewett on 8-9 August 1921 at Wild Horse Creek near Andrews on the SE slope of Steens Mtns. and currently in the Smithsonian (report and photos of specimens submitted by TC).

YELLOW-BILLED MAGPIE *Pica nuttalli*

*Not Accepted:*

**YBMA-1985-01 (N1)** Near Fort Klamath, Klamath Co., 1 bird on 4 June 1985. (Old number: 476-85-01)

**YBMA-1987-02 (N2)** Three miles west of Redmond, Deschutes Co., 1 bird on 1 February 1987. Several members of the OBRC considered the identification was probably correct but the bird would have been of questionable origin; others felt it may have been a Black-billed Magpie with yellow food or other matter in its beak. This species is not known to wander from the central California region where it is indigenous. (Old number: 476-87-02)

**YBMA-1994-03 (N3)** Summer Lake WA, Lake Co., 1 bird on 18 September 1994. Not accepted as key field marks of yellow skin about eyes were not seen. (Old number: 476-94-03)

EURASIAN SKYLARK *Alauda arvensis*

VERDIN *Auriparus flaviceps*

*Not Accepted:*

**VERD-1982-01 (N1)** Painted Hills SP, Wheeler Co., on 2 February 1982. (Old number: 746-82-01)

SEDGE WREN *Cistothorus platensis*

**SEWR-2003-01 (A1)** North Spit Coos Bay, Coos Co., 1 territorial bird 30 May-12 June 2003 (TR; videos by OS, DKn, DLa) (Old number: 724-03-01)

**SEWR-2018-05 (A3)** Waite Ranch, 3 mi east of Florence, Lane Co., first found 13 December 2018, later determined to be 2 individual birds (details RRo, NM, AdH; photos AdH, NM, NeN, CTu).

_eBird NOTE: One bird present 13 Dec 2018 to 5 May 2019, with written description on 5 May in eBay by DaF. Two were present 21 December to 11 January (recording, photos, and description on 21 December by AdH; thorough eBay description on 11 January by JW)._}

*Not Accepted:*

**SEWR-2008-03 (N1)** E.E. Wilson WA, Benton Co., 1 bird on 4 November 2008. The observation was brief and the description incomplete and did not rule out other species. (Old number: 724-08-03)

**SEWR-2013-04 (N2)** E.E. Wilson WA, Polk Co., 1 skulking bird on 5 January 2012. Although details suggest Sedge Wren they do not entirely rule out Marsh Wren. (Old number: 724-13-04)
RED-FLANKED BLUETAIL  *Tarsiger cyanurus*

NORTHERN WHEATEAR  *Oenanthe oenanthe*

NOWH-1988-03 (A2)  Finley NWR, Benton Co., 1 bird on 1 October 1988 (HH). (Old number: 765-88-03)

NOWH-1995-04 (A3)  Tillamook, Tillamook Co., 1 bird on 28 October 1995 (DMc, JJo). (Old number: 765-95-04)

**NOWH-2009-05** (A4)  Whalen Island, Tillamook Co., 1 bird 17-18 September 2009 (photos by GG, AC, TC, DHe, TJ; video by OS). (Old number: 765-09-05)

**NOWH-2010-06** (A5)  Bullards Beach State Park, Coos Co., 1 bird 24-26 September 2010 (details TR; photos by TGh, KnA). (Old number: 765-10-06)

NOWH-2011-07 (A6)  Pistol River, Curry Co., 1 bird on 17 September 2011 (TR). (Old number: 765-11-07)

**Not Accepted:**

EASTERN BLUEBIRD  *Sialia sialis*

*[eBird NOTE: Last seen on 16 March 2019, when two were photographed and documented in eBird by NM.]*

GRAY-CHEEKED THRUSH  *Catharus minimus*

WOOD THRUSH  *Hylocichla mustelina*

DUSKY THRUSH *Turdus naumanni*  

CURVE-BILLED THRASHER *Toxostoma curvirostre*  

BROWN THRASHER *Toxostoma rufum*  

**BRTH-1979-02** (A2) Hart Mt., Lake Co., 1 mist-netted on 22 June 1979 (LRM; photo by JS). (Old number: 705-79-02)

**VIWA-1998-17**  

**VIWA-1998-18**  

**VIWA-2016-19**  
Pistol River, Curry Co., 1 first fall bird, 11 September 2016 (TR). (Old number: 644-16-19)

[ebIRD NOTE: Last seen 6 February 2018, based on eBird description by TBr.]

Not Accepted:
VIWA-1985-04 (N1) Spencer’s Butte, Lane Co., 1 adult in alternate plumage on 5 May 1985. (Old number: 644-85-04)

VIWA-1985-05 (N2) Cape Blanco, Curry Co., 1 immature on 17 August 1985. (Old number: 644-85-05)

VIWA-1995-09 (N4) HQ Malheur NWR, Harney Co., 1 bird on 22 May 1995. Not accepted as description did not eliminate similar species. Observer did not note yellow undertail coverts, which should have been present on Virginia’s Warbler. (Old number: 644-95-09)

CONNECTICUT WARBLER Oporornis agilis

Not Accepted:
CONW-1982-01 (N1) Bend, Deschutes Co., 1 male in alternate plumage on 20 May 1982. Record had been accepted, but was rejected on reconsideration for unconvincing details. (Old number: 678-82-01)

CONW-1997-02 (N2) Kelly Butte Park, Multnomah Co., 1 bird on 5 May 1997. Not accepted as description was unconvincing and did not rule out other warbler species. (Old number: 678-97-02)

CONW-1999-03 (N3) HQ Malheur NWR, Harney Co., 1 male on 16 May 1999. Not accepted as description did not describe characteristic habits and plumage details, and did not rule out similar warbler species. (Old number: 678-99-03)

CONW-2015-04 (N4) Lincoln City, Lincoln Co., 18 September 2015. Ambiguous description; behavior not noted; does not rule out other species; need more documentation for a first state record. (Old number: 678-15-04)

MOURNING WARBLER Geothlypis philadelphia

MOWA-1984-02 (A2) West of Oakridge, Lane Co., 1 male in alternate plumage on 12 July 1984 (SH). (Old number: 679-84-02)

MOWA-1983-03 (A3) South of Corvallis, Benton Co., 1 immature male on 4 September 1983 (MH). (Old number: 679-83-03)
MOWA-1990-04 (A4) Brothers, Deschutes Co., 1 male on 3 June 1990 (TC). (Old number: 679-90-04)

MOWA-2001-05 (A5) HQ Malheur NWR, Harney Co., 1 male on 26 May 2001 (HH). (Old number: 679-01-05)

**Not Accepted:**
MOWA-2002-06 (N1) Fields, Harney Co., 1 bird on 28 May 2002. Details not totally convincing of this very difficult to identify species. The possibility of Common Yellowthroat was not ruled out. (Old number: 679-02-06)

MOWA-2003-07 (N2) P Ranch, Harney Co., 1 adult male on 18 May 2003. Not accepted as bird seen too briefly to obtain sufficient details for this very difficult to identify species. (Old number: 679-03-07)

MOWA-2016-09 (N3) Skinner’s Butte, Lane Co., 1 bird on 29 April 2016. Insufficient description lacked key details and did not rule out other similar species. (Old number: 679-16-09)

---

La Grande, Union Co., private residence; 1 bird 30 Dec 2010 through 2 Jan 2011 (TBr, DFe).

**MISCELLANEOUS SPECIES**

Several species appear on the official checklist of Oregon birds, and the OBRC lists them on the Review List, but the OBRC has not reviewed these reports:

**California Condor Gymnogyps californianus.**

Gabrielson and Jewett (1940, Birds of Oregon, Oregon State College, Corvallis, pages 180-181) report that California Condors were first recorded in Oregon by Lewis and Clark, but that there were no reliable accounts after 1904.

**Sharp-tailed Grouse Tympanuchus phasianellus.**

Once widespread in eastern Oregon, Sharp-tailed Grouse has not been reliably reported since 1969. Gabrielson and Jewett (above, page 217), foretold its extirpation: “. . . continual persecution and shooting, combined with human encroachment on its alternate grounds, have so reduced it in numbers that its future as an Oregon bird is precarious.”
