

2022 Oregon Listing Results

Summary, highlights

Compiled by Paul Sullivan

When we began compiling Listing Results in 1980, 30 people participated.

This year 143 people, including 14 new participants, submitted data. To give context to this year's numbers, I have carried forward numbers (marked with an asterisk) from 218 other living birders, plus 37 deceased birding friends (names marked with the † symbol). In total, these Oregon Listing Results include the efforts of 399 birders spanning the last 42 years.

These birders have contributed data to 130 categories, from the Oregon state life list to various county lists to local count circles and yard lists. In recent years eBird has made record keeping easier for more people. New communication tools have made it possible to share rare bird sightings in real time, facilitating listing. Witness the surge in birders pursuing the goal of seeing 100 species in each of Oregon's 36 counties.

Yard Lists (119)

Yard lists represent a variety of sizes, habitats, and duration of observation.

Everyone's yard list is noteworthy, just for the fact that it gets us paying attention, no matter the number of species.

Congratulations to everyone who participated!

Thank you to Ken Chamberlain for helping post the call for listing results. \

Thank you to Caryn Stoess for her help setting up the website and getting the results published.

Good birding, everyone,
Paul T. Sullivan, McMinnville, OR
