

2024 Oregon Listing Results

Summary, highlights

Compiled by Paul Sullivan

When we began compiling Listing Results in 1980, 30 people participated. This year 145 people, including 13 new participants, submitted data. To give context to this year's numbers, I have carried forward numbers (marked with an asterisk) from 211 other living birders, plus 45 deceased birding friends (names marked with the † symbol). In total, these Oregon Listing Results include the efforts of 401 birders spanning the last 44 years.

Today's birders are contributing data to 133 categories, from the Oregon state life list to various county lists, to local count circles and yard lists. Our new communication tools facilitate listing. They make it possible to share bird sightings in real time, and eBird has made record keeping easier for more people.

Yard Lists (144)

Yard lists represent a variety of sizes, habitats, and duration of observation.

Everyone's yard list is noteworthy, just for the fact that it gets us paying attention, no matter the number of species.

Congratulations to everyone who participated!

Thank you to Ken Chamberlain for helping post the call for listing results.

Thank you to Caryn Stoess for her help setting up the website and getting the results published.

Good birding, everyone,

Paul T. Sullivan, McMinnville, OR
