

# 2025 Oregon Listing Results

Compiled by Paul Sullivan

## Quick Highlights:

We have a new member of the 500 club. Owen Schmidt has tallied 500 species in Oregon.

Top 10 Year lists: Elijah Hayes did a big year in Oregon, finding 1895 new county birds, and jumping into third place on the all-time top ten year lists category with 377 species. Jeff Nordstrom, Donna Nordstrom, and Lin Stern also reached the top ten year lists ranks this year. Eight of the all-time top ten year lists have been logged since 2021, exemplifying the power of our new communication tools to facilitate pursuing a big year.

Russ Namitz became the second person to log 175 species in all 36 Oregon counties. Chuck Gates joined the ranks of those who tallied 100 species in all 36 counties and five people joined the ranks of those who have seen 125 in all 36 counties.

Three birders who had not previously submitted numbers and two who had not updated their numbers for some years jumped into the ranks of those who have tallied 400 species in Oregon, bringing this category to 100 members.

Thomas Meinzen took green listing to a new level, logging 299 species in 2025, by foot, bicycle, or public transit. See his blog: [greenbirder.substack.com](http://greenbirder.substack.com).

Birding in the Corvallis CBC circle, Hendrik Herlyn jumped into reporting numbers for a 15-mile diameter circle and went to the top of that category. I too joined the ranks of those who are tracking 15-mile diameter and 5-mile radius local circles. It took some digging in my notebooks for the last 20 years, but it was fun to remember good finds and time with friends. My numbers do not set any records.

## Summary:

This year 120 people, including 10 new participants, submitted data. This is down from previous years, perhaps due to fewer calls for submissions. To give context to this year's numbers, I have carried forward numbers (marked with an asterisk) from 212 other living birders, plus 45 deceased birding friends (names marked with the † symbol). In total, these Oregon Listing Results include the efforts of 377 birders spanning the last 46 years.

Today's birders are contributing data to 98 categories, from an Oregon state life list to various county lists, to local count circles and yard lists. Our new communication tools facilitate listing. They make it possible to share bird sightings in real time, and eBird has made record keeping easier for more people.

### **Yard Lists** (159)

Yard lists represent a variety of sizes, habitats, and duration of observation.

Everyone's yard list is noteworthy, just for the fact that it gets us paying attention, no matter the number of species.

### **Congratulations to everyone who participated!**

Thank you to Ken Chamberlain for helping post the call for listing results.

Thank you to Caryn Stoess for her help setting up the website and getting the results published.

Thank you to those who expressed concern for my sister's health. She is still hanging in there at 97 years old.

Good birding, everyone,  
Paul T. Sullivan, McMinnville, OR
